MIDWEIGHT DEVELOPER JOB ROLE

PrimitiveSense are a small digital business based in Newcastle upon Tyne and Sunderland. PrimitiveSense are a very focused, smart working company who specialise in design and development of websites and website applications in particular those for eCommerce. PrimitiveSense work across various size website and projects whoever are mostly based and focused on bringing in eCommerce builds which includes the development of multiple platforms. It is important that the candidate has outstanding knowledge of Shopify/Shopify Plus, Wordpress/WooCommerce and Magento as these are the main three platforms we work with.

PrimitiveSense are looking for the ideal candidate who comes with the following assets;

- Can lead a team of other developers if required in the future
- Has a lot of energy
- A invested interest in development & new web technologies
- The willingness to always learn
- Good communication skills both face to face and remotely
- Can express new ideas, methods of working and solutions to a wide range of challenges
- Happy and fun to be around
- Can travel to the office
- Can travel to meetings
- Can work remotely
- Is sociable

Our working environment is very relaxed. Grab a coffee or any available refreshments when you need one, take a break when you need one, we will allow you to align and organise your day as you please once the morning scrum has taken place. We have no set working hours, so as long as you cover your contracted hours over a weekly period we would be very happy for you to work around what fits your lifestyle and family best, all we ask is that you turn up for required meetings and scrums when they are organised.

We also offer remote working throughout the week as it is often other members of the team have commitments to families and other variable lifestyle commitments.

Interested? Take a look at the specification on the next page and let us know by dropping us an email on info@primitivesense.com. We really look forward to hearing from you!

Our newest member of the team should have a genuine, invested interest in programming and the development of websites and web applications. They must have experience of digital development in PHP Content Management Systems, eCommerce Platforms and frameworks as mentioned on the opening page of this document. The candidate must also have outstanding knowledge of Javascript, HTML & CSS.

Your role would be to develop and maintain websites for all of our existing and future clients.

REQUIRED EXPERIENCE

- Using Various PHP Frameworks
- Using Various PHP Content Management Systems including Wordpress
- Command Line Experience
- Apple MacOS
- An understanding of being able to integrate Front-End Languages, Libraries & Frameworks
- Version Control - Bitbucket/GitHub/SVN
- Proficient understanding of website security
- Website Performance
- Ability to implement API's
- Accessibility and Security Compliance

RESPONSIBILITIES

- Building reusable code and libraries
- Optimisation of the applications for maximum speed and scalability
- Integration of user-facing elements developed by front-end developers with server side logic
- Ability to present your ideas to the team

- Ability to write good documentation

INCENTIVES

- Competitive Salary
- 38 Hours Per Week
- Flexible Working Hours & Remote Working
- 28 Days Holiday
- Additional day off for your Birthday
- Your Own MacBook Pro
- Company Meals
- Conference Tickets
- Great Networking Opportunities
- Relaxed Office Environment
- Charity Work Opportunities

***If you are interested in this role please get in touch with us on the details noted on the cover page or closing page of this document. If you're in the Sunderland area then pop in to see us at the Software Centre! We have coffee on tap!**
